

INTEGRAL TECHNOLOGIES

PA-PAA-XXX

Public address amplifiers

Features:

PA-PAA Series PA Amplifiers have various power outputs and they are designed for the Public Address System.

- Signal Indicated LEDs
- Main Volume Control
- Over Current Protection
- Short Circuit Protection
- Turn on Delay
- Fault Indication
- Power Output Mode: 110V, 70V, 4-16 Ohms
- Over Heating Protection
- Cooling: Continuously Variable Speed Fan

| MODEL | PA-PAA-360 | PA-PAA-650 |
|--------------------------|---------------------------|------------|
| Output Power (In Watts): | 360 | 650 |
| Output Voltage | 70, 100 volts, 4-16 Ohms | |
| Input sensitivity | 775 mV, 10 Kohms | |
| Frequency response | 60 Hz – 18 KHz +/- 2 db | |
| T.H.D. | <0.5% (1 khz) | |
| Signal to noise ratio | 90 db | |
| Power Requirements: | 220-240 VAC, 50 / 60Hz | |
| Dimensions: | 48.3W x 40D x 8.9H (2 HU) | |
